

CURRENT CONCEPTS IN PLASTIC SURGERY

Edited by Dr Francisco J. Agullo

Francisco J. Agullo, MD, FACS is a board certified Plastic Surgeon based in El Paso, Texas. He holds the title of Clinical Associate Professor of Plastic Surgery at the Texas Tech University Health Sciences Center, Paul L. Foster School of Medicine, as well as Affiliate Professor at the University of Texas at El Paso. His private practice is primarily based at El Paso Cosmetic Surgery. Dr Agullo graduated from Universidad Anahuac in Mexico City, and trained in general surgery at Texas Tech University. He then completed plastic surgery training at the Mayo Clinic in Rochester, Minnesota. He is a Fellow of the American College of Surgeons and member of the American Society of Plastic Surgery. He has also become a member of the International Society of Aesthetic Plastic Surgery. Dr Agullo has an extensive number of publications and presentations to his name at both national and international levels.

Plastic surgery continues to be a rapidly growing field in medicine. There have been multiple recent advancements in the field. Specifically, there has been a continuously growing interest in fat grafting, body contouring, minimally invasive surgery, and plastic surgery education. At the same time, there have been continued advances and modifications in surgical techniques, which translate into better and improved results for our patients while increasing safety and efficacy. The title of the book is Current Concepts in Plastic Surgery and, as such, it highlights some of the "hot topics" in recent years. We have invited renowned specialists from around the world to share their valued expertise and experience. Most of the chapters will expose the reader to multiple techniques for achieving desired results, with emphasis on the author's preferred methodology.
